A STANDARD RIG HAS BEEN BUILT

Drilling will begin shortly. An 18 inch hole will be drilled to a depth of 3600 feet if necessary. A bond has been filed at First National Bank of Portales to complete well. If you are a business man you will appreciate this business arrangement. You will also appreciate the fact that such men backing Nu-Mex Oil Co. are men worth while---men who have made good. Their reputation and money are in back of this proposition. Read the list of men.

In The Heart Of The Next Great Oil Field

We Are Offering You the Opportunity To Be On the Ground Floor When This Great Field Comes In

Every great oil field has its beginning. Every beginning and its findings are based upon geological survey, and the opinion of geologists. The United States Geological Survey pronounces the central portion of Eastern New Mexico as the next great oil field of the world. It is upon this great prospect that we have initiated what we believe is the real opening of the biggest of all fields.

We have but to look back the short space of two years to the time when the great Texas fields were nothing more than prospects such as lie untested in Eastern New Mexico. It is needless to remind of the Millions upon Millions which those great fields have brought to investors.

The NU-MEX OIL CO. has vast acreage under lease near Portales, Roosevelt County. The Company's Directors have the inforsement of every business man and banker at Ada, Okla., and Portales, New Mexico. The advisory Board is composed of successful men in all walks of life. The Chamber of Commerce at Ada and Portales have endorsed our Company---among our references are eight banks. No Oil Company ever undertook the development of a new field under more favorable conditions. The following Geologists have passed upon the prospects of oil in Central New Mexico: Chief Geologist White of the United States Government, Dorsey Hager, Mr. Milton McWhorter, a man of 45 years experience, D. J. Lynch, of De Leon, John W. Cook, Owen La Neve and J. T. Taylor.

Our men have backed the company with their reputation and their money. If the personnel of the Company is substantial enough to suit you---Send in Your Subscription Today!---a few hundred dollars may make you Wealthy!

REMEMBER

A surety bond is on file at the First National Bank of Portales, to guarantee completion of well. Everything is being done to rush the work. Crews of Drillers will work day and night until the well is completed.

This Is a Real Opportunity to Join In the Successful Development of a New Oil Field

A limited amount of fully paid and non-assessable stock is offered at its par value, \$1.00, One DOLLAR, Per Share. The price will be immediately advanced when this allotment is sold. Don't Delay!
